## Face & Hair Mists

### Bamboo Mist

Bamboo mist is blend of bamboo leaves hydrosol and bamboo stem hydrosol. Hydrosols are produced by steam distillation process and they are quite gentle on skin.

Bamboo plant is extremely rich in silica, an essential mineral that promotes healthy skin and hair. With ageing – the silica levels decline in our body which leads to wrinkles and loose skin. Bamboo mist can be used as a face mist & hair mist to compensate for this decline as ageing happens.

Being considered as a powerhouse ingredient in skincare – the silica content in this mist provides various benefits to our skin and hair.

- Makes skin radiant and supple. Provides strength and firmness to skin.
- Helps to draw impurities from the skin and also enables the skin to absorb the goodness of products that we apply on it.
- Protects skin from free radicals damage and diminishes fine lines.
- Helps to balance the pH level of skin.
- Can also be added to face packs and hair packs to get more benefits.
- Provides smoothness, shine and strength to hair and skin.

### Rose Mist

Rose Mist is derived from fresh rose petals through Steam Distillation process. This finest Rose water hydrates, cools and soothes the skin with its antioxidant and anti-inflammatory properties.
